News of the week

Developing Kids

Every week the kids in the Educare follow a theme. This week it was 'shapes'. We cut shapes, pasted them, built houses, made beautiful fishes and played games.

Most were very difficult for them. They do not know anything about it, everything is new. That is because they do not receive any support from their families. Nobody is playing with them, nobody is caring about them, nobody is giving them the attention they need.

At the Ubomi Obutsha Centre we are trying to give them the things they need, but do not get. First the basic needs, like food, clothes and health care. But we are also giving them attention, education and love. And the children are doing very well! They are trying, learning and developing. We are very proud of them!

- Lieke

Three new volunteers (Yvonne, Eveline & Imke) arrived from The Netherlands. After spending some time getting acquainted with the flow of things, they are excited to make their contribution. We can already see the new, fresh energy that they have brought with them! and ideas!

We need

- **Tutors** - Volunteers who can help schoolchildren with their schoolwork in the afternoons. It is amazing what a difference a little personal attention can make!
- **Funding** - Regular financial donations towards sustainability costs. It's great to have "things", but the real value lies in being able to put those "things" to work.
- **Fund Raisers** - At times we need to raise money for specific needs (school supplies, etc). We are looking for people who would be willing to join these efforts when needed.
