## Anelisa

As a German volunteer I am mainly supporting the Educare program of the Center. With the time I know the children better and better and that makes it sometimes not easy to know the conditions where they are coming from.

Anelisa is one of the older children of the program and will go to school next year.

Already in my first week I met Anelisa's mother when she was fetching her daughter in the afternoon. She wanted to dance with me and was just totally drunk. With the time I noticed that not only her mother has a alcohol problem, but also her grandmother, where she is staying most of the time because her mother is not taking care of her. Sometimes I have even the impression that Anelisa prefers to stay at the Center instead of going home.

One day the mother was that drunken, that we did not want to give her the child, so we brought Anelisa to her father's place, in hope that he would not be drunken on this day.

In situations like this, I notice how much the Center can give to the children.

-Eva-
