## The Long Wait Is Finally Over . . .

Thanks to the fund raising efforts of the Rotary Club of Algoa Bay & a few other individuals & groups, our 3-year 'quest' for a new vehicle has come to an end!

In December 2011, our long-serving previous vehicle broke down for the last time. It was decided that the expense to fix it again wasn't justified. Not having a vehicle put a tremendous strain on the project as a whole & for the past 3 months, food had to be collected using a private car & trailer.

The food that is collected is crucial to all we do because only **when you can feed a child, can you teach a child.**

We are so very appreciative of all the local stores who support us with donations of food as it enables us to feed almost a thousand children every month at our project & many more when we take into account children who are cared for by other community organisations that we are able to support when we have more than we need.

On the day we collected our new vehicle, we received a call from a supporting store to let us know that they had some extra food to give & asked if we would be able to collect it straight away. We literally drove the bakkie from the shop floor directly to do it's first collection!

We . . are . . so . . grateful!
