## **"I am a Child and Youth Care Worker and this is what I do:**

*I create and implement the routines of daily life. I encourage you to dress neatly and tidily and to take pride in your appearance because I believe that this will help you to recognise your own value, or that it expresses something about who you are or about who you want to be.*

*I do these things because you need stimulation and I want this to be a place where you feel welcome and accepted despite your challenging behaviour. I do this because I care. I am not a social worker, teacher, nurse, nanny, psychologist, not even a substitute parent, I am a child care worker.*

*I am a child and youth care worker and I do all these things because I care.*

*Every word I utter and every action I take are considered carefully so that your experience of me and the environment might heal your brokenness and build new strengths for you.*

*I do these things because I believe that they are important, because you are also important."*

### **General Information**
